PROFESSIONAL SUMMARY

Computer Science Engineering undergraduate at Uttaranchal University with hands-on experience in developing responsive websites and full-stack application prototypes. Familiar with HTML, CSS, JavaScript, React.js, Node.js, Express.js, MySQL, and MongoDB. Completed web development and artificial intelligence internship programs and developed projects involving farmer procurement management, online learning, and business website development. Interested in software engineering, frontend development, and building practical, user-focused applications.

EDUCATION

Uttaranchal University, Dehradun, Uttarakhand **Expected 2027**
Bachelor of Technology (B.Tech) – Computer Science and Engineering
CGPA: 7.0/10

TECHNICAL SKILLS

Programming Languages: Java (Beginner), JavaScript
Frontend Development: HTML5, CSS3, React.js
Backend Development: Node.js, Express.js
Databases: MySQL, MongoDB
Developer Tools: Git, GitHub, Visual Studio Code
Problem Solving: Data Structures and Algorithms (Beginner)

EXPERIENCE

Web Development Intern – Agratas Academy **Aug 2024 – Oct 2024**

- Practiced frontend development using HTML, CSS, and JavaScript.
- Built responsive web layouts using CSS Flexbox and Grid.
- Applied mobile-first design principles and learned cross-browser development practices.

Artificial Intelligence Intern – CodSoft

- Completed practical Python-based artificial intelligence internship assignments.
- Developed a rule-based chatbot, a recommendation system, and a Tic-Tac-Toe AI project.
- Practiced Python programming and problem-solving through project-based tasks.

PROJECTS

KisanSetu – Farmer Procurement Management Platform GitHub
React.js, Node.js, Express.js, MySQL

- Developed a web-based platform prototype to simplify farmer procurement and booking processes.
- Implemented farmer registration, login, and JWT-based authentication.
- Built procurement centre and slot management functionality for farmers and managers.
- Integrated frontend and backend services with a MySQL database.

Nexora LMS – Learning Management System GitHub
React.js, JavaScript, Vite

- Developing an online learning management platform designed to connect educators and students.
- Working on course discovery and a structured online learning experience.
- Exploring a platform model supporting paid educational content and online courses.

Live Demo: View Nexora LMS

Cafe Website – Responsive Business Website GitHub
React.js, JavaScript, HTML, CSS

- Designed and developed a responsive website template for a cafe business.
- Created a customizable website structure adaptable to cafe branding, menus, and business needs.
- Deployed the project using Vercel for live demonstration.

Live Demo: View Cafe Website

CERTIFICATIONS

- **Web Development – Agratas Academy** Aug 2024 – Oct 2024
- **Artificial Intelligence Internship – CodSoft**
- **Software Engineer – Certificate of Accomplishment, HackerRank**
