PROFESSIONAL SUMMARY

B.Tech Computer Science and Engineering student at Uttaranchal Institute of Technology, Uttaranchal University, with hands-on project experience in responsive web interfaces and application prototypes. Familiar with Java (beginner), JavaScript, React, Python basics, and web application technologies. Interested in software development, debugging, database-backed applications, and learning industry engineering practices.

EDUCATION

B.Tech, Computer Science and Engineering — Uttaranchal Institute of Technology, Uttaranchal University, Dehradun, Uttarakhand | Expected 2027 | CGPA: 7.0

TECHNICAL SKILLS

Programming: Java (Beginner), JavaScript (ES6+), Python (Basic)
Frontend: HTML5, CSS3, React.js **Backend & APIs:** Node.js, Express.js, REST APIs (Basic)
Database: MySQL **Tools:** Git, GitHub, Visual Studio Code
Core Concepts: OOP, DSA fundamentals, DBMS

INTERNSHIP EXPERIENCE

Web Development Intern — Agratas Academy | Aug 2024 – Oct 2024

- Practised HTML, CSS, and JavaScript for webpage structure, styling, and interactive elements.
- Built responsive layouts using Flexbox and CSS Grid, focusing on mobile-first design and cross-screen compatibility.
- Gained exposure to web development workflows and frontend development practices.

SELECTED PROJECTS

KisanSetu — Agricultural Procurement Platform
React, JavaScript, Express.js, MySQL | Working prototype

- Built application flows for farmer registration, login, and procurement booking.
- Worked across frontend components, backend API integration, and database-backed features.

Nexora LMS — Learning Management System
React, JavaScript, CSS | In-development prototype

- Developing a platform where educators can upload courses and students can browse and access course content.
- Course access and payment features are planned or in progress; payment integration is not presented as completed.

FixMyCity — India-Wide Civic Issue Reporting Platform
Project in development

- Designing a platform concept for residents to report and track civic issues such as potholes, garbage, water leakage, and broken streetlights.
- Planned features include location-based issue discovery, report status tracking, and public statistics. Independent platform; not an official government portal.

Personal Portfolio Website
HTML, CSS, JavaScript

- Created a responsive portfolio concept to present skills, projects, certifications, and contact information.
